

Massasoit Community College Online Programs

No more juggling your schedule, rushing to class, or fighting traffic.

Massasoit Community College offers a wide variety of online courses. These courses provide a way for you to customize your learning experience to match your educational goals, learning styles, and scheduling constraints. Online classes are taught by the same instructors and contain the same curriculum as their traditional counterparts. This allows students to work independently at home, the office, or on campus.

All of the courses required to complete these programs are offered online. Note: Some courses may require proctored exams. Students may need to visit campus for registration and student services.
